Dearness Allowance (DA) Report Components

The DA menu includes two submenus:

1. **Current**
2. **Past**

Both submenus will have similar functionalities, with UIs designed for filtering and downloading XLSX reports.

Features of the DA Report UI:

Filters:

1. **Financial Year**: Dropdown to select the financial year.
2. **Client**: Dropdown for selecting the client.
3. **SPSN**: Dropdown for selecting the SPSN.
4. **Partner Location**: Multi-select dropdown for partner locations.
5. **Month**: Dropdown to choose the desired month.

Action Button:

- **Search**: Clicking this button downloads the filtered report as an XLSX file.

UI Design Details:

Filter Form Layout:

Filters will be aligned in a grid layout to make the form visually appealing and user-friendly.

UI Elements:

1. Labels for each filter.
2. Dropdowns for Financial Year, Client, SPSN, and Month.
3. Multi-select dropdown for Partner Location.

Workflow:

1. User selects filter options.
2. User clicks on the **Search** button.
3. Backend API generates the XLSX file based on filters and triggers a download.

Both the **Current** and **Past** submenus will have this design but with data scoped to their respective contexts.
